Summary

B.Com graduate with a CGPA of 9.05 and practical academic project experience in Excel, Power BI, financial modeling and reporting. Combines a commerce and accounting foundation with Power Query, data modeling and DAX. Seeking an entry-level opportunity in business reporting, financial analysis, MIS or finance and accounting.

Education

Bachelor of Commerce (B.Com) | 2023 - 2026

Charan's Degree College, Bengaluru City University | CGPA: 9.05

Pre-University Certificate, Commerce (SCBA) | 2021 - 2023

Dr. Ambedkar PU College, Bengaluru | 90.50%

Skills

Excel: PivotTables, charts, IF, SUMIF, COUNTIF, VLOOKUP, XLOOKUP, INDEX-MATCH, Power Query, macros and VBA.

Power BI: Power BI Desktop, DAX, data modeling, data cleaning and transformation, dashboard development, KPI and MIS reporting.

Finance: Financial analysis, financial modeling, statement analysis, forecasting, scenario analysis, Tally Prime, journal and ledger entries.

Currently learning: SQL and Python.

Academic Projects

TCS Financial Analysis & Forecasting Model | Microsoft Excel

- Built a six-sheet financial model using eight years of TCS actuals (FY2018-FY2025), covering income statements, margins, EPS, CAGR and free cash flow in INR Crores.

- Linked Base, Bull and Bear forecasts through FY2028 to an assumptions panel with a custom growth-rate override; included 11 automated validation checks.

TCS Financial Outlook Dashboard | Power BI Desktop

- Built four report pages covering executive KPIs, historical trends, scenario drivers and financial detail using Power Query, a semantic model and DAX.

- Analyzed Revenue, calculated EBITDA proxy, adjusted PAT and organic free cash flow; documented future scenario values as sensitivity cases rather than company guidance.

Training

Intensive Excel Training Program | Feb 2026 - Apr 2026

Structured Skill Development, Bengaluru. Case-based work in lookup and conditional functions, Power Query, data cleaning and PivotTable reporting.
